- Event Credentials
- Membership Cards
- Mass Transit Pass
- Gaming Players' Cards

RoHS Compliant

TCP400 Thermal Re-Writable Card Reader/Writer

The TCP400 series offers the latest generation of Visual Card Reader/Writer systems. The TCP400 is a printer device which is used to write and erase information on 30 Mills thick cards. Information like loyalty points and special promotions can be updated any time the card is entered into the printer device. The unique dual pass head can provide clear text, barcodes, photos or other high quality graphics at 60mm/second. The TCP series are compact and streamlined units that will fit into any environment and are simple to operate. The card is simply inserted into the front of the unit, updated and automatically ejected in as little as 4 seconds.

Keep your customers with updated loyalty card!
