

# *iCORE*

## Kiosk terminal

**Retail customers** expect a high degree of added value, a good service offering, wide choice and speed. Due to these requirements, self-service solutions are becoming increasingly popular, with kiosk solutions taking on a key role due to their wide range of applications.

The **iCORE kiosk terminal** offers an ideal platform in this respect. With the iCORE kiosk, Wincor Nixdorf is extending its kiosk terminal family in the lower price-performance segment.

The **ultra-compact, free-standing kiosk terminal** for indoor use can be configured flexibly and is equipped with a powerful, compact PC unit and a 15" LCD touch screen in its basic configuration. The functional design and reliable technology offer high investment protection.

With a choice of additional established peripheral components, the terminal can be adapted to meet the requirements of different market segments, industries and applications.

**Receipt printers**, card readers, bar code scanners and loudspeakers are offered as standard options. Further components may be added to meet project or country-specific requirements.

### Highlights

- **Ultra-compact design**
- **Competitive price-performance ratio**
- **Flexible configuration**
- **Powerful PC technology**
- **Operator-friendly and easy to service**

## **Kiosk terminal**
